## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-7 and 20-22 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a method or process for multiplying two elements of a finite field to produce and provide the multiplier output via a mathematical algorithm. The claims are not limited to a practical application of the mathematical algorithm because the multiplier output is not a useful, concrete and tangible result. More specifically the multiplier output is not a tangible result because it is not a real world result.

Relative to applicants' remarks, the reciting of "a machine implemented method" does not limit the method to a practical application recitation of practical applications in the specification does not limit the claims to a practical application. Also relative to applicants' remarks the producing and providing of "the multiplier output" and "the multiplicative product" does not make the result a real world result.

### ***Allowable Subject Matter***

2. Claims 8-19 and 24-26 are allowed.

3. Claim 23 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

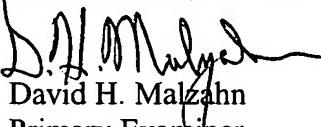

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
